Summer Workshop

August 3-7, 2009

9:00 a.m.- 4:00 p.m.

Shawnee State University

Workshop Goals

Research shows that students who are involved in activity based learning gain a better understanding of mathematics and that the student's ability to do mathematics is related to his/her ability to read mathematics accurately. The goal of the workshop is to . . .

- Help teachers integrate the standards into instructional practices;
- Develop activity-based teaching strategies that directly address the mathematics content standards.

Each participant will receive . . .

- \$150 stipend
- Mileage (up to 50 miles per day).
- Manipulative Kit including Mira, Geoboard, Polydrons, Pentominoes, Tangrams, Base 10 Blocks, Pattern Blocks & Probability materials.
- Breakfast & lunch included.

Registration is limited!
